+1 (628) 555-0147

## SUMMARY

Senior Product Designer with 7+ years of experience designing digital products across fintech, SaaS, and consumer platforms. Skilled at translating ambiguous product problems into clear user journeys, scalable design systems, and measurable business outcomes. Comfortable working end-to-end from research and wireframing to polished UI and close collaboration with product managers and engineers.

## SKILL

Product Design

Design Systems

User Research

Figma

Prototyping

Usability Testing

Cross-functional Collaboration

## WORK EXPERIENCE

### Resnova

Product Designer Mar 2024 – Present

- Designed the end-to-end resume writing flow so users can edit directly on the final layout with minimal friction
- Built reusable UI patterns and interaction states to keep the editing experience consistent across core product surfaces
- Collaborated closely with product and engineering to refine onboarding, template usability, and export clarity
- Turned user feedback into practical interface improvements that made the product easier to understand and use

### Color Molor

Visual Designer Jan 2022 – Feb 2024

- Created visual concepts, campaign assets, and branded materials across digital and social channels
- Maintained visual consistency across marketing outputs by developing practical design references and reusable layouts
- Worked with cross-functional teammates to translate product and campaign goals into clear visual communication
- Balanced speed and quality while producing design deliverables for multiple timelines and stakeholders
